## THE LINCOLN RECEPTION.

The Union League Club, of Chicago, Wishes Them an Agreeable Residence Abroad.

Robert T. Lincoln, the new Minister to England, and Mrs. Lincoln were tendered an informal reception at the Union League Club Tuesday night. The rooms were handsomely decorated, and a large number of club members and citizens were there. During the evening President Bissell stepped to where Mr. Lincoln stood and handing him a large bunch of flowers said:

Mr. Lincoln: When you did the Union League Club the honor of accepting hospitality at its hands, in that acceptance you exacted one pledge—that there should be no speech-making. We accepted the exaction, in a diplomatic sense, however. This explanation I deem necessary to pre-serve our untainted reputation for veracity. Now as a mark of the high appreciation of the honor you have bestowed on us, allow me as a slight token of our good will and high assurances to tender Mrs. Lincoln, through you, this basket of flowers. And we hope when, after a safe and pleasant voyage you have arrived at your post of duty and honor that both you and Mrs. Lincoln will find all your surroundings agreeable. We hope—we know that the appointee will honor the appointment.

Mr. Lincoln replied as follows: I do not think that it is literally true, though perhaps diplomatically true, that I exacted the speech-making pledge. I think, if my memory serves me right, I merely asked if there were going to be any speeches. But since we have got thus far I cannot neglect the opportunity of expressing my sense of the exceedingly great honor which this club has bestowed on me this evening. This is one of the greatest clubs in Chicago, not alone superior in numbers, but especially distinguished in one regard—its active and earnest efforts in the advancement of matters of public welfare. Its members, diversified by a hundred occupations, exert an influence beneficial to all good citizens.

Whether it was the adoption of the recent admirable election laws, the inauguration of which this club played no small part, or in celebrating the birthday of Washington, or more recently the celebration of the first inauguration of Washington, the Union League Club is always equally earnest and successful. Much the same feeling which has honored the club on former occasions animates them to-night. Of all the countries, none are of so much interest to the Chicago citizen as Great Britain and Ireland, and this event is only following out the universal course of the club in public matters. I suppose it may be taken as true that the Chicago citizen, so far as he is represented here, is not dissatisfied with the selection which has been made by the President. It is simply a question with you whether a Chicago man can fulfill the obligations of so important an office, whether he will be discreet or indiscreet, whether a Chicago man cannot do his duty well. But, be it as it may, these expressions of good will, so many of which I have heard to-night, will be to me an incentive and encouragement; and when my sojourn is finished and I return to my private occupation here, I hope I will have done nothing that will tend to make my welcome home any less warm than that which was so warmly tendered me this evening.

After an informal shaking of hands and wishing Mr. Lincoln Godspeed and bon voyage, the members departed for their homes.

Uncle Jerry Rusk has proved his right to be at the head of the Agricultural Department. He is a farmer, every inch of him, and he knows how to swing a scythe. The Washington Star, of last Wednesday, tells how it happened as follows:

While Secretary Rusk was driving through the Agricultural Grounds on his way to the office he noticed half a dozen men in a row mowing down with scythes the short ragged early spring growth of grass. He quickly bade the driver stop, and getting out of his carriage went over to the place where the men were at work. "I will show you how to mow," he said, and took a scythe from one of the men. He grasped the scythe, and his towering form was soon swaying and the scythe was ripping in great semi-circles through the grass. The song of the scythe as it zipped the ear of the birds, the little swish of the breeze as it blew through the trees and the Secretary's whiskers, and the exhilarating motion bringing into play again muscles that once made sport of scything, all seemed to have the influence and the Secretary for the moment was a happy, sun-browned, horny-handed, one-suspendered, hickory-shirted farmer. All the cares of office were lifted, and instead there settled down upon him a clover-scented peace. He mowed a mighty swath. The memory of that scythe-cutting giant mowing with the little awe-stricken band of mowers that stood speechlessly by for many a year, and be told by them to their grandchildren as a treasured reminiscence of the Secretary. Finally the Secretary stopped. He looked for a moment under a tree as if expecting to see a jag reclining on the shady side, and then, perhaps by force of habit, wiped his lips. With a cheery smile he handed the scythe back to the man he took it from, and with a light step and well-expanded chest went on to the department, there to take up again vigorously the reaping hook of reform. He had given practical instruction in agriculture.

The fourteen buildings of the Leland Stanford Jr. University at Palo Alto, which have been in process of erection for some time, are nearly completed. These buildings include the halls, recitation rooms, lecture rooms and the buildings devoted to the various departments of the institution.

Judge Mathews, who succeeds Judge Durham as First Comptroller of the Treasury, and Heston, who succeeds Hyatt as Treasurer of the United States, entered upon their duties yesterday.

The New Hampshire Legislature will choose a United States Senator next month. There are several candidates for the place, but all that is definitely known at this time is that the lucky man will be a Republican.

The Chinese must go again. The United States Supreme Court has declared the Scott Exclusion Act constitutional.

The State Printing Office is running with a force of four men.

## EXODUS OF THE CHILDREN OF HAM.

Negroes Leaving North Carolina by Thousands and Flocking to Kansas.

TORRENS, Kan., May 7.—Gov. Humphrey is in receipt of a letter from George W. Price, Jr., of the North Carolina Emigration Association, of Wilmington, relative to the condition of labor in Kansas, its demand, employment and compensation. Information is sought because thousands of the negroes have already emigrated from that State to this and many thousands more are preparing for this move. This unabated emigration began last January and is assuming such vast proportions as to threaten depopulation of that element in that State. The writer alleges as a reason of this movement poor wages, ill-treatment, cruel, unjust and oppressive class legislation which practically disfranchises the negro. The letter was referred by the Governor to the Labor Commissioner, who replies to the effect that of the 50,000 colored population of the State the majority are found in cities and towns. Adult males fill the ranks of unskilled laborers, earning from \$1.25 to \$1.50 per day, and find employment about two-thirds of the year. In 1879 there was an exodus of negroes from Mississippi brought here by a similar condition of affairs. The Commissioner reasons that if another exodus is to occur from North Carolina still greater hardships will await them than have been endured by those of 1879. He recommends the sending of an intelligent committee to examine localities in different States, and then only to move after due consideration.

## A WANDERER RETURNED.

The Silver State says: Hon. Thomas Fitch has arrived at Reno with his wife, with the intention of remaining permanently in Nevada. He is a pioneer of this State, having practiced law and conducted a newspaper in Virginia City in early days. In 1864, after the Constitution had been adopted, a United States Convention was held in Carson City. Mr. Fitch was placed in nomination for Congress, by request, and although he made by far the most eloquent speech delivered in the Convention, and was cheered to the echo, his name was not on the slate, and he did not receive a vote. Four years later he was nominated by acclamation by the Republican State Convention, and elected Representative to Congress. In 1870 he was again the nominee of the Republican party for Congress, but was defeated by Charles W. Kendall. He then left Nevada, but returned in 1874 to stamp the State in the interest of William Sharon against Adolph Sutro. Since then he has lived in Arizona, California, Oregon and Washington Territory by turns and now returns to Nevada, probably with a view of participating in the next political campaign. As an orator, he has not, and never has had, an equal in the State, the only persons who could at all compare with him in early days being Frank Gansahl and W. H. Clagett, both of whom were at one time residents of this county, from which fact Billy Clagett acquired the name of "The Humboldt Boy."

## A RESIGNATION.

Reasons Why Judge Sullivan Will Abandon the Bench.

The San Francisco Bulletin has this: The rumor that Superior Judge Sullivan intends to resign soon and resume the practice of law proves to be well founded. His resignation will take effect on August 1st. In speaking of the matter to a reporter last evening he said: "I have been on the bench for something over nine years. I have enjoyed, I suppose, all the honor and glory appertaining to the position, and my friends tell me my duty to myself and my family demands that I should lay up something for the future. They tell me—and I am inclined to believe them right—that a lawyer who has attained an established position here can make considerably more in general practice than his salary as Superior Judge amounts to. My family is growing up, and if I am to plunge into the field and try to build up my material interests, it is time I went about it."

## Reduction in Fare.

SAN FRANCISCO, May 10.—Dispatches have come to the local ticket agents announcing a reduction to go into effect to-day, of a thorough limited first class rate between this city and New York from \$90.00 to \$88. The unlimited rate remains \$90.50. It is understood that the Santa Fe will put on two daily overland trains between Los Angeles and Chicago, beginning next Sunday.

## The Storm at Susanville.

SUSANVILLE, May 10.—The storm that commenced here last Saturday ceased yesterday. Over five and a half inches of water fell. Snow from one to four feet deep has accumulated in the mountains.

## Sincere Congratulations.

The following telegram was received by Henry T. Scott, of the Union Iron Works: Detroit, (Mich.), May 10. Union Iron Works: Please accept my sincere congratulations upon the performance of the Charleston. The Pacific Coast will soon be able to defend itself. R. A. Allen.

A great many editors are getting Federal appointments. President William Henry Harrison said this in his inaugural:

There is no part of the means placed in the hands of the Executive which might be used with greater effect, for unhalloved purposes, than the control of the public press. The man who can control the press derived from the mother country, that "the freedom of the press is the great bulwark of civil and religious liberty," is one of the most precious legacies which they have left us. We have learned, too, from our own as well as the experience of other countries, that golden shackles, by whomsoever imposed, are as fatal to it as the iron bonds of despotism.

This cold shock is from the Sierra Valley Leader: Reno wants a military post. It would be a good thing for the business of the town, and about as useless to the government as a wooden leg to a man who has no use for one.

The Elko Free Press remarks: Reno wants a military post established within her limits. Reno is an enterprising town and will probably get the post. It won't be the fault of her live citizens if she don't get it.

The N. Y. San says: "The Vaidia Sisters' dashing and daring performance in mid-air. Their act has the charm of originality, and is the most finished and perilous undertaking ever attempted by a gymnast. If their first trick is wonderful, the concluding one is a marvel. When Chevalier Blondin walked across Niagara on a rope, he accomplished no more perilous feat than Lizzie Vaidia accomplishes every night in diving from the dome of the theater to a mattress eighty-five feet below. This is a part of no trick, but a triumph of gymnastic skill and daring."

## "THE CZAR" DEAD.

Theo. Winters Loses His \$16,000 Horse.

Intelligence reached Mr. Winters yesterday morning, at his home in Washoe City, that his wonderful three-year-old colt "The Czar," had died of lung fever at Sidney, Nebraska, that morning. Mr. Winters immediately wired his friends here of his loss. He valued the colt at \$16,000, and those who have read of his performances, as recently published in the JOURNAL, know the horse was well worth that sum. Mr. Winters had fears of sending the horse by the Union route. He was very anxious to get them off on the Southern route, but could not get the right kind of a car. He feared the high altitude of the Rocky mountains. The JOURNAL regrets the financial loss sustained by Mr. Winters.

John Robertson was arrested yesterday, on complaint of W. R. Chamberlain, for fast driving over the bridge, and was adjudged guilty by Judge Young and remanded to jail for sentence to-day at 10 o'clock a. m. There are a number of persons in and about town who indulge in violating the law, by driving over the bridge faster than a walk. Mr. Chamberlain has started into stop the violation of the law. If certain young bloods do not respect the notices at either end of the bridge they may have to step up to the Justice's office and add a few dollars to the School Fund.

## Seeing Boom Land.

The Austin Revelle reports the annexed: R. T. Hopkins returned from his trip up to Oregon and Washington Territory last night. He tells us that he found prices for land and buildings at Tacoma and Seattle enormously exorbitant, that it takes almost a fortune to buy a piece of land in the woods around these cities, and that by summer or next year, there will be a reaction and tumble in prices. At Portland he found several good opportunities to invest in real estate and enter business, as there is no boom there, the land rated on its worth, and business gathered on a solid basis. Joseph Huber was with him most of the time, and they enjoyed it together. He is now in San Francisco looking out for a desirable place to begin business in the dry goods line. Mr. Hopkins while in San Francisco made several turns in city real estate and he thinks there is more sure to realize on investments. The boom in the northern country beats everything he ever saw. He met Frank Dwyer, formerly of Austin, located at Portland as a practicing attorney, and Wm. Warner, who has returned from Washington to San Francisco unable to get employment in the booming country.

## The Two Pecos.

The Ogden Daily Commercial relates this: Stenographer Pike, of the District Court, who is in the city doing court duty, is an old-time western newspaper man. He and Peter Meyers, telegraph editor of the Commercial, met in the print shop of this information bureau last night, and after gazing at each other for the space of four minutes, they fell to and wept. They had not seen each other for eighteen years, when they were working together on the Virginia City Enterprise, where Pike was city editor and Pete was foreman. The two P's sat down on the hall box and began talking over the old days. They became so interested in the reminiscences that Pete forgot his paste pot and ebears until Deuteronomy, the Commercial's "devil," shouted "coppee!" loud enough to rattle the lamps. Pike got up, stretched his legs, and addressing Pete, said, "Well, I go down to the Alhambra awhile and come back to go to supper with you." He evidently thought he was back in Virginia City.

## SUSANVILLE LEFT.

Quincy Gets Away With the Fair.

Of the selection of Quincy as the place for the Northern Fair this Fall the Susanville Advocate says:

Last Saturday the officers and directors of the Eleventh Agricultural District met at Susanville to receive bids for holding the Fair, and to transact other business. When the bids were opened it was found that Quincy had subscribed \$4,500 and all privileges; Susanville \$4,002 with privileges reserved; Greenville no bid. Quincy was therefore declared to be the place for holding the next meeting. The date, owing to the uncertainty as to when the Reno meeting would be held, was not settled, but it will be either Sep. 23 or Sep. 30.

The following officers were elected: President, J. W. Thompson, of Quincy; Vice President, J. D. Byers, of Honey Lake Valley; Secretary, P. Halstead, of Quincy; Assistant Secretary, R. L. Davis, of Susanville; Treasurer, E. Whitlock, of Quincy.

## Wanted to Fight.

Sam Davis perpetrated this one on the agent of Reilly & Woods:

The other day the advance agent of the Reilly & Woods show, came to this city, and meeting some of the Carson citizens at the depot platform, proceeded to expatiate on the merits of the show, at the same time handing out some of the hangers descriptive of the performance.

One of the gentlemen who read the list of attractions looked quietly at the agent and remarked:

"This is a dave show, I believe."

"Dave show? What do you mean, sir?" exclaimed the agent, bristling up, as the blood came in his eye; "no man living can call this a dave show. It is one of the most respectable shows on the road, sir."

"I merely judged so from the program," replied the Carson man, without moving a muscle.

"I'd like to see anything on the program indicative of a dave," shouted the agent, getting ready to fight.

"Right here," said the stranger; "it says: 'A dive of 85 feet, in mid air, by Miss Yandis; the largest dive on record. Performed in full sight of the audience.'"

The agent tugged at his mustache about a second and headed the procession to George Bryson's saloon.

## The Hayden Hill Mines.

The Susanville Mail says:

At Hayden Hill, this county, a large amount of ore has been taken from the various mines there, and the output of gold this year, will, from present indications, greatly exceed that of last year. The Hayden Ganga mine, operated by Messrs. Roche, Norton and Sterne, is turning out some rich ore. A vein was recently struck that prospects \$280 per ton, and Messrs. Amble, Rose and Sehn on the Brush Hill mine, are taking out ore that will yield \$100 per ton. The Golden Eagle is yielding good ore and the other claims are all being worked and pay ore extracted. We would be glad to hear that all the miners at the Hill had struck it rich, as they are all men of grit and have labored long and hard in seeking the precious metals, and we hope their industry and persistency will meet with the goodly reward they so richly deserve.

## Rich Strike Near Greenville.

The Greenville Bulletin says:

James Moore and John Owens have made a very rich discovery about 8 miles from Greenville, west of the Long Valley Reservoir, and 1 1/2 miles northwest of the Rush Creek mine. The South end of the ledge is on the divide between the waters of Rush Creek and those of the North Fork. From the Summit of the divide the croppings extend 850 feet on the North Fork slope. At a point 800 feet from the southeast end of the ledge, they have sunk a shaft 20 feet deep, at the bottom of which the vein is 9 inches wide, strong, and it prospects on an average between fifteen and twenty dollars per ton. Ten inches on the hanging wall it is claimed, will yield \$100 per ton. From the statements of those who have examined the ledge, it is a very rich development, the croppings along the whole line of the 850 feet yielding good prospects.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-27-ly.

The Elko Independent says:

Louis Goldstein brought down from Mountain City a load of ore from the Reurrection mine, which will be shipped either to Salt Lake City or Reno for reduction as soon as a car load is obtained. The ore will work about \$400 to the ton. He says the prospects for the mine are quite favorable.

## WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at retail price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BROWN'S BLOOD PURIFIER AND BLOOD MAKER and every bottle that does not do its work will cost you nothing.

## 250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME.

### THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue—Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

## RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno. Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

## RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
